

Utility companies require Municipal Consent in order to make installations within the City of Kawartha Lakes right-of way. Approval of a Municipal Consent is only granted to utility companies, commissions, agencies and private applicants, who have the authority to construct, operate and maintain their infrastructure within the City right-of-way.

All utility work within the City requires Municipal Consent from the Engineering department and a [Road-Occupancy Permit](#) from the Public Works department. With the exception of emergency work, no installations shall begin before Municipal Consent has been received. Companies must provide formal, detailed drawings for review that show where the utility will be placed.

Please contact the Engineering division at 705-324-9411 Ext 2117 to start the process of submitting a Municipal Consent Application.
