Implementation – Turning the Plan from Vision to Reality

Perhaps the most critical ingredient in developing any Strategic Plan is a commitment to implementation.

At the City of Kawartha Lakes, staff will be guided by the vision and by the strategic goals and actions that are contained in this document. To ensure staff remains on track and on target, this document will be utilized as the basis for developing operational plans at the departmental level.

Staff will monitor and report on the results every six months and take progress reports to Council and post them to the City of Kawartha Lakes website at www.KawarthaLakes.ca so that the community members can see the progress. Staff will work collaboratively with the many community partners to see key priorities emerge as ‘on-the-ground’ actions and will be unwavering in our collective commitment to moving forward with the priorities that are articulated herein.

We welcome your input and we invite you to follow our progress.
