Temporary Driveway Access Restriction – Storm Culvert Replacement

Dear Resident,

Please be advised that construction activities related to underground road servicing installation will be taking place in front of your property beginning **Monday July 20, 2026**. As a result, **driveway access will be temporarily restricted from July 20, to August 7**.

This temporary disruption is necessary to facilitate the safe and efficient completion of underground servicing works within the roadway allowance adjacent to your property. Please note that all construction schedules are subject to change due to weather conditions and unforeseen site circumstances.

Important Parking and Access Information

Driveway access will be unavailable during construction.

All vehicles must be removed from driveways and from the roadway directly in front of the property prior to the commencement of work.

Vehicles should remain parked outside the active construction zone until driveway access has been restored.

Temporary parking will be available north and south of the construction area.

Homeowners will be notified directly once driveway access has been reinstated.

We understand that this temporary inconvenience may impact on your daily routine and we sincerely appreciate your patience, cooperation, and understanding as we complete this important phase of the infrastructure improvement work safely and efficiently.

Should you have any questions or require assistance regarding access arrangements, please contact one of the site representatives below:

Emergency Contacts:

Foreman – Cody Curran (289) 385-3164

Project Manager - Jacob MacDonald (905) 261-8711

Thank you for your continued support and cooperation.

Sincerely,

Jacob MacDonald Project Manager Hard-Co Construction
